

MIND HIGH SCHOOL

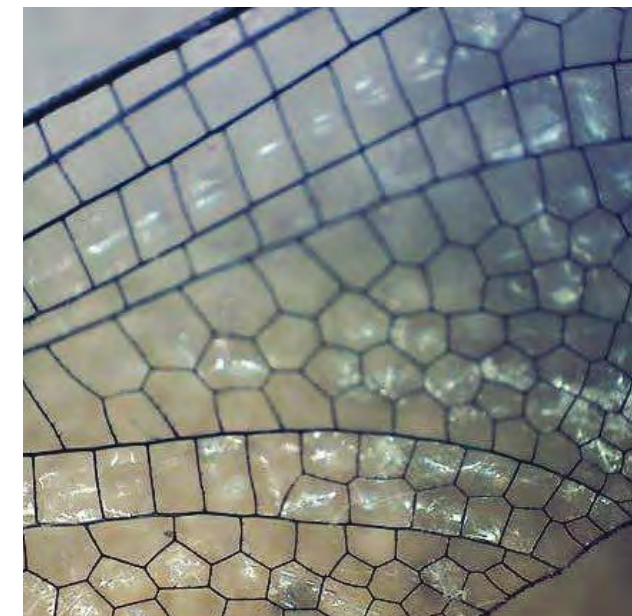

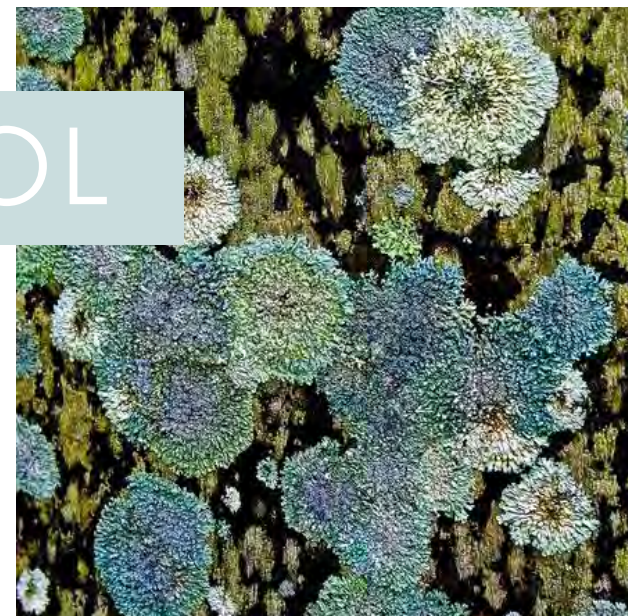

LOCATION: Parisian Laundry Building
3550 St-Antoine Ouest, Saint-Henri, Montreal
AREA: 24 300 SQ FT
COMPLETED APRIL 2019

MIND is an alternative high school that has been in Montreal since 1975. It caters to motivated and autonomous students in grades 9-10-11 and uses a democratic approach in its teaching methods.

This project proposes a new location, the Parisian Laundry Building, offering a variety of facilities including a greenhouse, auditorium, and rock climbing wall, as well as flexible classrooms and lounge areas.

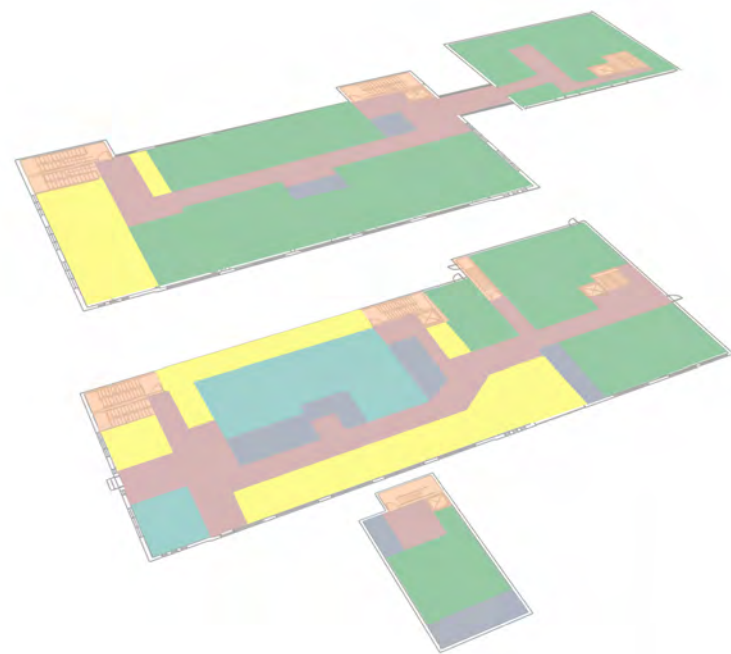

The space is designed to accommodate 72 students and 9 faculty members, and limits class sizes to 12. It aims to promote a sense of community, tolerance, and respect for individuality.

Driven by concepts of transparency, growth, and photosynthesis, the design incorporates glazing features to maximize daylight access both to its users and greenery.
